## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Roland Bowler on 1-10-05.

The application has been amended as follows:

In claim 19, line 3, after "antenna", insert --, the antenna an integral part of the handset body--.

In claim 19, line 7, after "antenna", insert --, at least a portion of the antenna loading member being adjacent an inner surface of the housing portion--.

Cancel claim 20.

## Allowable Subject Matter

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 10 teach towards a system and method for a wireless communication handset with interchangeable housing portions, comprising: a wireless communication handset body having electrical communications circuitry coupled to an antenna; a first housing portion having a first shape and a second housing portion having a second shape, the second shape of the second housing portion different than the first shape of

Application/Control Number: 10/074,160

Art Unit: 2682

the first housing portion; the first and second housing portions interchangeably mounted on a common portion of the handset body, the first housing portion loading the antenna with a first load when the first housing portion is mounted on the common portion of the handset body, the second housing portion loading the antenna with the same load as the first housing portion when the second housing portion is mounted on the common portion of the handset body.

Page 3

Claim 19 teaches towards A wireless communication handset, comprising: a wireless communication handset body having electrical communications circuitry coupled to an antenna; a housing portion mounted on the handset body adjacent at least a portion of the antenna; an antenna loading member disposed between the housing portion and the antenna, the antenna loading member comprises an electrically conductive material spaced apart from the antenna by a dielectric, wherein the antenna is a part of the body and the loading member is at least in part formed along the inside of the housing portion.

The prior art discloses antenna loading devices, such as Wong, however the prior art fails to teach or suggest the dielectric loading member and the antenna being fixed to the interior of the housing and the interior body, or the use of a number of loading members which may be exchanged to provide differing loading characteristics with the same resonance frequency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Application/Control Number: 10/074,160

Art Unit: 2682

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

Conclusion

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks

Washington, D.C. 20231

Or faxed to:

(703) 872-9306 for both formal and informal/draft communications, labeled

as such.

Hand delivered responses should be brought to Crystal Plaza II, 200

South 20<sup>th</sup> St, Arlington VA, first floor lobby.

Any inquiry concerning this or earlier communications from the examiner should

be directed to examiner Charles Craver at (703) 305-3965.

If attempts to reach the examiner are unsuccessful, the examiner's supervisor.

Vivian Chin, can be reached at (703) 308-6739.

Any inquiry of a general nature or relating to the status of this application should

be directed to the Group receptionist at (703) 305-4700.
